## Developing An Employee Handbook Workshop (15th Run)

**25 November 2015**

The purpose of an employee handbook is to provide employees with a working guide to the understanding of the day-to-day administration of human resource policies and practices in a company. It is designed to provide employees with a general summary description of the company's HR policies, employee benefits, and code of conduct.

The handbook can help ensure that all HR policies and practices conform to legal requirements. Employers can use the policies in the employee handbook to protect themselves against possible lawsuits pertaining to harassment, wrongful termination, discrimination claims etc.

Participants attending this workshop will be provided with a comprehensive template for an Employee Handbook!
